

High school senior pictures are an important part of your senior year, so why have your pictures by the same company who has been taking your pictures since kindergarten!

Yes, most schools have contracts with a company that you have to go to for your yearbook picture but **you can go anyplace** for your senior portraits. Having your yearbook picture taken is **FREE**. If the company charges you for the session, get a receipt and most local professional studios will credit the fee towards your custom senior session.

At Moore Photography Inc., we've been taking senior portraits for over 25 years, giving individual attention to each senior. We don't treat our seniors as a number, we get to know each senior and find out what's important for them.

We have a number of sessions that last from 1 hour to 4 hours, both indoors and outdoors and around town and the community.

We strive to make each session as unique as you are, from having your favorite music playing while in the studio to having your favorite soft drink ready for you. (It makes you thirsty having fun)
